## Student Recruitment

Carl Thomas & Farooq Sultan

Board of Trustees  
June 28, 2016

Oregon Institute of Technology's recruitment tactics and strategies have been altered over that last several years. Prior to the 2011–2012 recruitment cycle, the Office of Admissions had a stronger focus on resident recruitment than it did on nonresident recruitment. Since the start of the 2011–2012 recruitment cycle, however, the Office of Admissions increased nonresident recruitment activities while still maintaining strong efforts to recruit resident students.

Admissions has also focused on the office's responsibility for undergraduate admission of students for the university's multiple campuses in Klamath Falls, Salem, and Wilsonville. Concurrently, Admissions has assisted with distance education and graduate program recruitment by working on improvements within the application processing steps for these programs. The office does not have a strategic international student recruitment plan, but has committed resources to improving international student application processing; including processing of I20s for incoming international students.

Admissions recruitment of under-represented students, to date, has been opportunistic and blended in with overall recruitment activities. However, the office's recently approved Senior Admissions Counselor position, which will be filled by a bilingual (English/Spanish) staff member, will lead a more focused effort to recruit underrepresented students; especially resident Latino and Latina students. The new underrepresented student recruitment strategy will be planned and initiated for the 2016–2017 recruitment cycle.

## MISSION & PHILOSOPHY

The Admissions Office clearly and effectively communicates the features and benefits of Oregon Tech to prospective students and their families. It provides the services the students need to successfully gain admission into the university and transition into the university's student body.

Our desire is to:

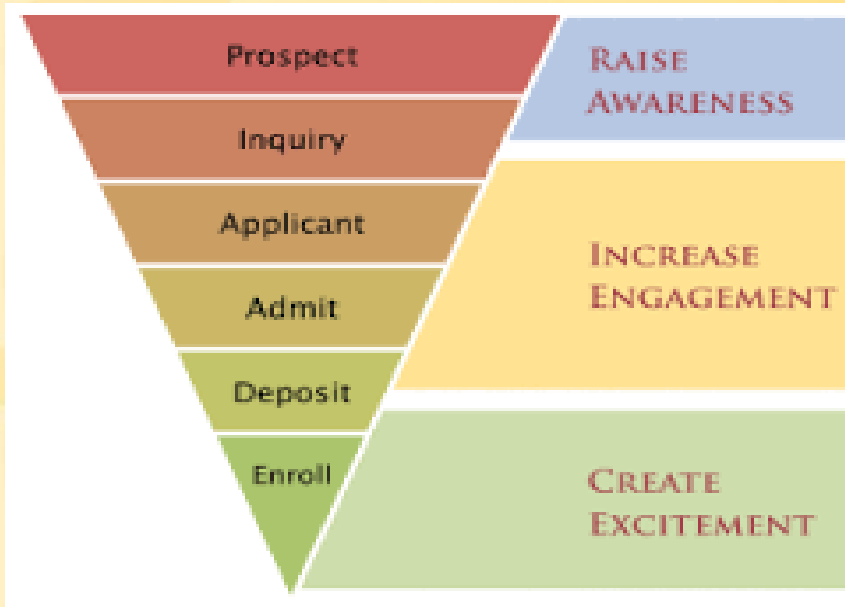

- 1) Promote access through standard/minimum admission requirements and enroll the number and type of students needed to meet the institution's enrollment goals.
- 2) Support Oregon Tech's pursuit of excellence by enrolling new students who are capable of persisting successfully to their academic objective at the university.

Values that guide this effort include:

- 1) Acting with integrity.
- 2) Seeking the best for the student.
- 3) Conducting business in a consistent fashion without sacrificing adaptability.
- 4) Responsibly managing our resources.
- 5) Working as a team to accomplish our objectives and goals

# STUDENTS REASONS FOR SELECTING OREGON TECH

- **Mason Manera:**
  - HOMETOWN: Lihue, HI
  - MAJOR: Electrical Engineering
  - WHY OREGON TECH: I decided to come to Oregon Tech because I wanted to further my education with an interest in engineering and also challenging myself to compete at the collegiate level as a Track and Field athlete. Oregon Tech gave me that opportunity to continue my career as a student athlete.
- **Tiara Gero**
  - HOMETOWN: Puyallup, WA
  - MAJOR: Respiratory Care
  - WHY OREGON TECH: WUE made it possible for me to finance my education and pursue the career that I've always wanted. My class sizes are small, my professors know me by name, and I won't graduate with a lot of debt. Attending college out-of-state has been a great experience and the WUE program made it affordable for me.
- **Danit Hubbell**
  - HOMETOWN: Ashland, OR
  - MAJOR: Civil Engineering
  - WHY OREGON TECH: I learn a lot better in smaller classrooms, so that was a really important factor for me. Then when I visited and toured the campus everyone I met was really welcoming, I didn't just feel like a number and everything clicked and it felt right.
- **Sara Nelson**
  - HOMETOWN: Hood River, OR
  - WHY OREGON TECH: After receiving an AA [and doing] some research of different ultrasound programs available on the West Coast, Oregon Tech topped the list! The smaller class sizes and hands-on experience creates an amazing environment for students.

# STUDENTS REASONS FOR SELECTING OREGON TECH

- **Caydn Lofton**
- **HOMETOWN:** Coos Bay, OR
- **MAJOR:** Software Engineering
- **WHY OREGON TECH:** I came to Oregon Tech because of the reputation. The software program is the best in Oregon, and the small class sizes means I am able to have a lot of one on one help with any academic challenges. I also wanted to go to a school that had a large focus on producing successful students and Oregon Tech is well known for that.
- **Elaine Li**
- **HOMETOWN:** Portland, OR
- **MAJOR:** Vascular Technology
- **WHY OREGON TECH:** I decided to come to Oregon Tech because it is one of the only schools on the West Coast that offers medical imaging as a 4 year bachelor degree, hands on, and small class sizes.
- **Kevin Baker**
- **HOMETOWN:** Prospect, OR
- **MAJOR:** Civil Engineering
- **WHY OREGON TECH:** I chose Oregon Tech because it has a great reputation, and the hands on learning they offer. I wasn't sure if I wanted to become a civil engineer but at Oregon Tech I knew I would get to know what a civil engineer does on a day to day bases. I also chose Oregon Tech because of its high job placement and its high ranking in the nation for return on investment.

# STUDENTS REASONS FOR NOT ATTENDING OREGON TECH

Attending another university/college

- Prefer another institution's location
- Prefer another institution's "fit"

Financial Restraints

- Increases as "reason" later in recruit cycle

Attending Community College

- Seems to be the same with Oregon Promise
