

# Video Quizzing using Kaltura in Blackboard

Using the Video Quiz feature, you can add questions to a video you have created and uploaded into Blackboard using the Kaltura tool. You can add the questions at any point in the video. You can see the quiz results after students take the video quiz. Note that students can only take the quiz one time but they can view the video as many times as they want. (If the same quiz video is in another class, a student can't retake it in that class either.)

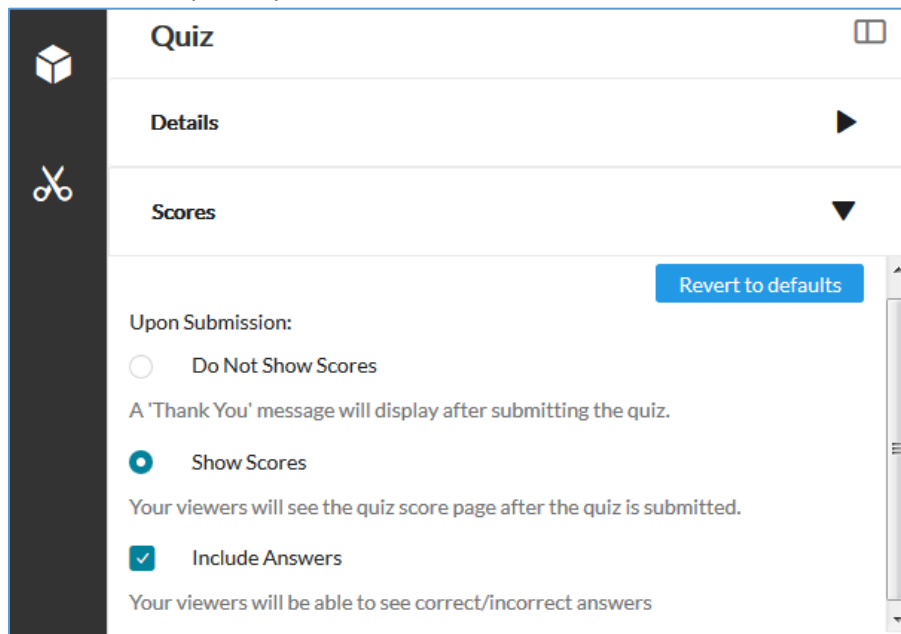

First create a video either using the "CaptureSpace Lite" feature in Kaltura or by using any other program you like to use for making videos. Upload that video into your Blackboard class using the Kaltura tool. (Directions for how to upload videos into Kaltura are listed in a separate document on the Oregon Tech Online website.)

1. In a Blackboard class, go into "Course Materials." Point at the "Build Content" button. Select "Kaltura Media."
2. Click the "Add New" button in the top right corner. Click "Video Quiz." (If you have already created the quiz video, then you just need to click the "Select" button to add it to this class.)
3. Click the "Select" button at the end of name of the video that you want to put a quiz in.
4. Click the "Start" button in the middle of the page.
5. First edit the settings before adding the questions, so you don't forget to do this step. On the left side of the video, you'll see some options. These are the options you'll see in the Details link.

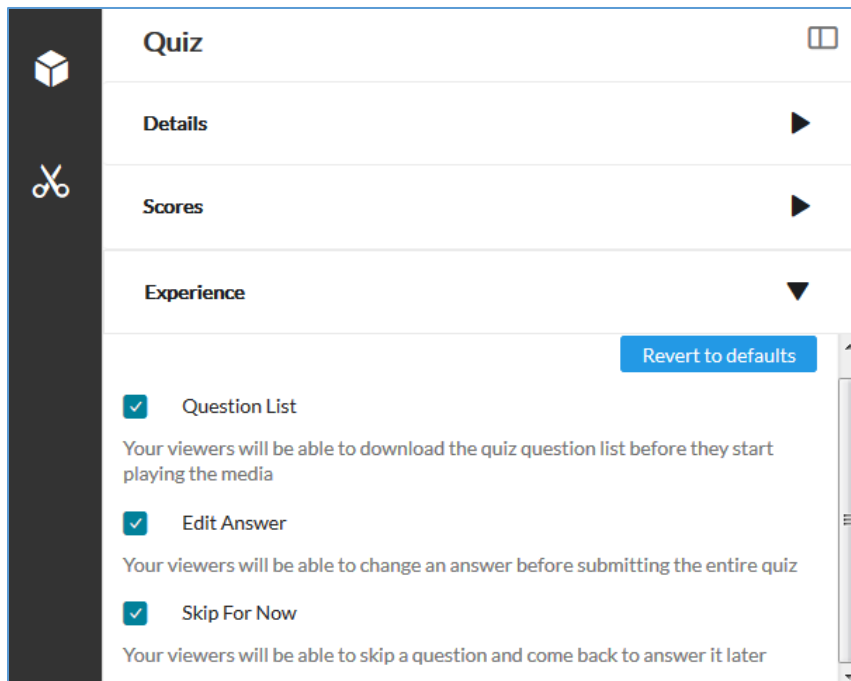

The screenshot shows the 'Quiz' settings page in Blackboard. The 'Details' tab is selected. A 'Revert to defaults' button is visible. The 'Quiz Name' field contains 'Logitech HD Webcam C270 - 2018 Jan 11 08:34:03 - Quiz'. The 'Welcome Message' field contains 'In this video, you will be given a Quiz. Good Luck!'. The 'Instructions' checkbox is checked.

6. These are the options you'll see in the Scores link.

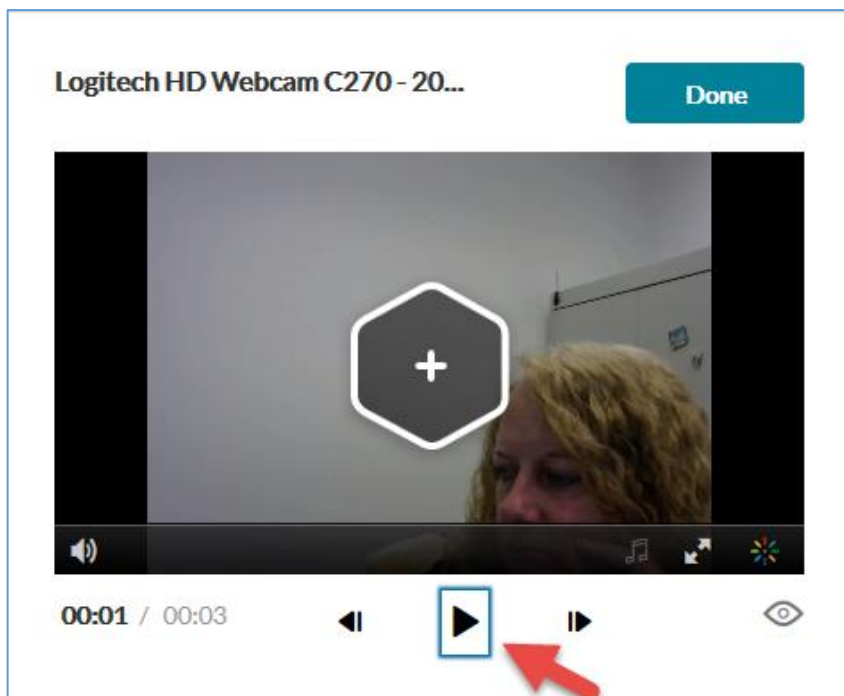

The screenshot shows the 'Quiz' settings page in Blackboard, with the 'Scores' tab selected. A 'Revert to defaults' button is visible. The 'Upon Submission:' section has two radio button options: 'Do Not Show Scores' (unselected) and 'Show Scores' (selected). Below this, it states 'A 'Thank You' message will display after submitting the quiz.' The 'Include Answers' checkbox is checked, with the text 'Your viewers will be able to see correct/incorrect answers' below it.

7. These are the options you'll see in the Experience link.

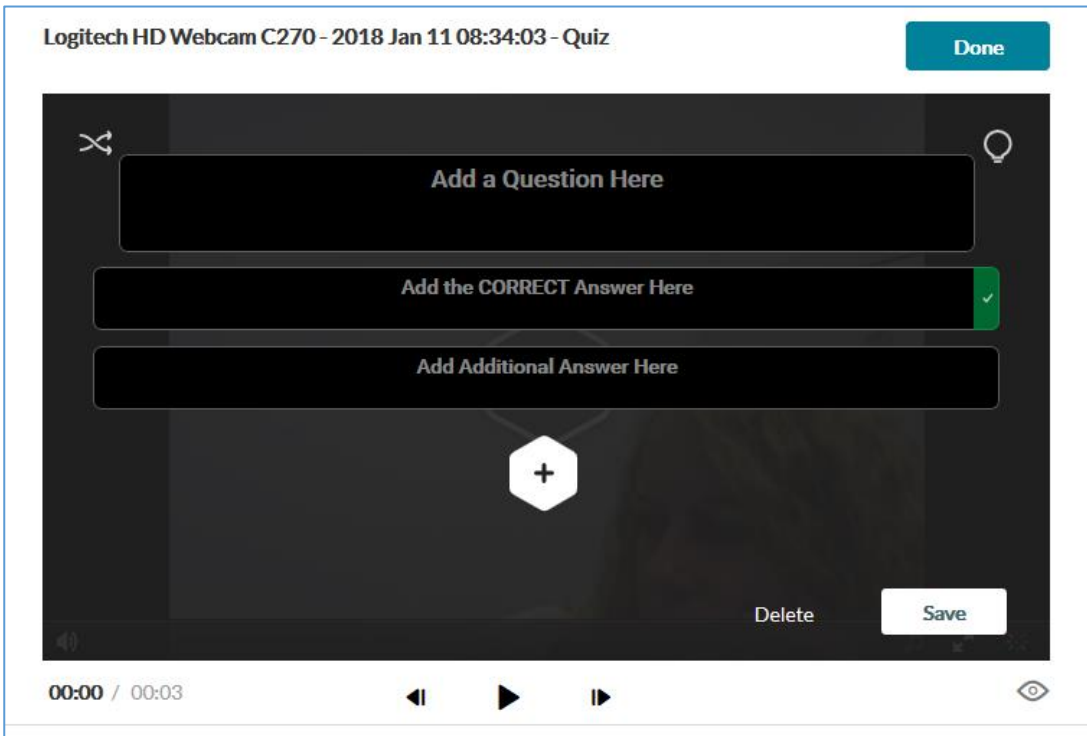

8. Click the play button under the video to start playing it.

9. Click the pause button below the video at the point you want to add a question. When you do that, a plus icon will display on the video. Click the plus icon.

10. A screen pops up with a box to enter a question and two answers. Type your question in the question box. Type the correct answer in the box that says “Add the CORRECT Answer here.” (There can only be one correct answer.) Type an incorrect answer in the “Additional Answer” box. Click the plus icon to add more boxes for more incorrect answers if needed. You can have up to three incorrect answers. **Drag the correct answer to a different line in some questions or the correct answer will always be the top one.**

11. Optional: Click the lightbulb icon in the top right corner to add either a hint or the why explanation. The why area is where you type why the correct answer is correct.
12. Click the “Save” button.
13. Click the play button under the video again to continue. Repeat the steps above to add another question.
14. When you’re done, click the “Done” button in the top right corner.
15. If you want, click the “Preview Quiz” button, which looks like an eye, to see how the test will look to students. Click the X in the top right corner (says Esc by it) to exit the Preview mode.

16. Click the “Done” button when you’re finished.

17. Click back into the “Course Materials” area where you want to display this video with a quiz in it.
18. Point at the “Build Content” button and select “Kaltura Media.”
  - a. Or to put a bunch of videos in a group. Point to the “Build Content” button and select “Item.” Type a name in the Name box. Click the “Mashups” button at the top of the text box. Click “Kaltura Media.”
19. Click the “Select” button in the row that contains the video with the quiz in it. (If you named it with Quiz in the title, it will be easy to spot.)
20. Type a Title on the page that displays and click the “Submit” button.

**To edit the video quiz later, follow these steps:**

1. On the first page you see when you log into Blackboard (where it lists all of your classes), click the “My Media” link in the My Media box.
2. Click the “Edit” box in row with the video you want to edit.
3. Click the “Launch Editor” button on the right side of the page.
4. You’ll be on the Quiz editor page and can add/edit/delete questions.
5. Be sure to click the “Done” button to save your changes.
6. Click the “Go to Media Page” to see your other videos.
7. To leave this area, click the “My Classes” link in the top right corner of the page.

**To view students results:**

1. On the first page you see when you log into Blackboard (where it lists all of your classes), click the “My Media” link in the My Media box.
2. Click directly on the name of the video quiz you want to view.
3. Click the “Actions” button under the video and select “Analytics.”
4. A page with scores opens like the below example. Click the “Quiz Questions” and “Quiz Users” options at the top to see more details.

The screenshot displays the Blackboard analytics interface for a quiz. At the top, navigation tabs include 'Dashboard', 'Media Galleries', 'Users', 'Quiz Questions', and 'Quiz Users'. The 'Quiz Questions' and 'Quiz Users' tabs are highlighted with a red box, and a red arrow points to the 'Quiz Users' tab. Below the navigation is the 'General Metrics' section, which shows the following data: 45% Avg Score, 0 Visits, 0 Plays, 0% View Drop Off, 0 Avg View Time, and 0 Comments. A 'Screen Capture' of the quiz interface is shown below the metrics. On the right side of the page, there are three sections: 'Top Engaged Users' (No data), 'Quiz Users' (Janelle Knaggs 33% Correct, anonymous 50% Correct, Joe Student 50% Correct), and 'Quiz Questions' (Where is the first place you need to go? 50% Correct, Is the box a good size? 25% Correct, New question 100% Correct, What was the next step? 50% Correct).

5. To leave this area, click the “My Classes” link in the top right corner of the page.
