

## Connecting to Tech-Student with Mac

1. Click the airport icon and select “Tech-Student”.
2. (if required) Select “WPA Enterprise” for Security (this will expand the dialog box).
3. Your username is your **firstname.lastname** and your password is the same password you use to log into the lab computers or check your OIT email.
4. (if required) Select the “Remember this network” box and click the “Join” button.

**Edit the existing network.**  
Edit the name and security information of the network.

Network Name:

Security:

User Name:

Password:

802.1X:

☐ Remember networks this computer has joined

☐ Disconnect when logging out

5. Click “Continue” at the Verify Certificate screen

**Verify Certificate**

**Authenticating to network "Tech-Student"**

Before authenticating to server "securelogin.arubanetworks.com", you should examine the server's certificate to ensure that it is appropriate for this network.

To view the certificate, click 'Show Certificate'.
