NOTE: Beginning Fall 2001, the following methodology is used to calculate Student/Faculty FTE. Student FTE is based on all credit hours (SCH) generated within each course. For undergraduates, one FTE equals total SCH divided by 15, for Master's students, one FTE equals total SCH divided by 12. Faculty FTE is calculated as total credit hours reported on faculty contracts divided by 12. Student/Faculty Ratio is the result of dividing Student FTE by Faculty FTE.
