## PREFACE

*"Knowledge is power. Information is liberating. Education is the premise of progress, in every society, in every family."*

*--Kofi Annan*

This has been a special year for OIT, most notably with the groundbreaking for the new Center for Health Professions building on the Klamath Falls campus in June 2006. We have completed an intensive year of Self-Study for the Northwest Association of Schools and Colleges and are looking forward to their site visit during spring 2007. Several new partnerships were formed this past year including one with Southern Oregon University and Crater Lake National Park. A new Bachelor of Science degree program is being offered in embedded systems. Furthermore, OIT will commence its second year of Strategic Enrollment Management and will launch another strategic planning process. These activities all rely on information about the past to plan for the future.

I wish to thank all who contribute to the Factbook and the people who regularly engage in the data quality process. Our reporting would not be as reliable or accurate without the consistent attention of core offices on campus.

This 9th edition of the Fact Book has been produced by Dale Estes, Research Analyst, in the Institutional Research office. Comments for the improvement of future publications should be sent to me by email ([anjela.duchi@oit.edu](mailto:anjela.duchi@oit.edu)), to Dale ([dale.estes@oit.edu](mailto:dale.estes@oit.edu)) or also to Dr. Joseph Holliday, VP for Student Affairs and Enrollment Management ([joe.holliday@oit.edu](mailto:joe.holliday@oit.edu)). The electronic version of this document may be accessed through the OIT website at <http://www.oit.edu/ir>.

Anji Duchi  
Institutional Research Director
