# **Graphic Identity Guidelines**

**Marketing Department**

[www.oit.edu](http://www.oit.edu)

*Hands-on education for real-world achievement.*

# Hello, We're the Oregon Institute of Technology, but you can call us **Oregon Tech** for short.

Oregon Tech wishes to present a consistent identity to the public. This guidebook is designed to help all members of the campus community to better understand the institution's core symbols and their appropriate use.

These logos serve as readily identifiable symbols that reinforce the Oregon Tech name and give a sense of unity to our publications, stationery, websites, merchandise, and other forms of communication. We invite you to use these designs with pride, reinforcing the quality of an institution that grows in reputation annually. The guidebook is the work of corrective action to enforce the consistency of the institution's communication efforts, and will prove useful to you in your correspondence and other publications.

Thank you for your attention to this important matter.

Sincerely, Marketing

*The Oregon Tech tagline, Hands-on education for real-world achievement, was developed in 2008 by Jon Lee + Associates Brand Strategy & Development of Portland, Oregon. The tagline process was initiated by the school's marketing committee in 2007, included many internally generated taglines, and involved a significant brand research project to develop and test concepts for the university's positioning, messaging and taglines. The tagline states, simply and directly, the school's distinctive position concept—hands-on/applied learning—and its benefit to Oregon Tech's students.*

*While use of the tagline is encouraged, as is focus on the position concept it expresses, in many cases its use is optional. These Graphic Identity Guidelines have been expanded to include information and examples for use of the tagline in the context of other graphic and textual elements.*

# Oregon TECH

Owl's eye graphic

Institutional seal

Athletics

## Logos

These are the official logos of Oregon Tech. They are the only logos that should be used to represent the institution. Offices and departments at Oregon Tech do not have permission to create their own logos or visual identifiers.

When referring to Portland-Metro in documentation, it should be referred to as either "Oregon Tech Portland-Metro" or "Oregon Tech Portland-Metro Campus (in Wilsonville)."

These graphic identifiers are registered trademarks and may not be used by off-campus groups, or for business or fundraising purposes, without permission.

**The owl's eye graphic** is an accent identifier. It does not replace "Oregon Tech" and can only be used if the full logo is present elsewhere on a piece.

**The institution seal** is reserved for specific uses. Academic certifications, official documents and awards require the use of this graphic mark.

The seal is not approved for use on other campus materials, without expressed permission from the President's Office.

**The athletics logo** is used for publications, merchandise, and uniforms related to the Oregon Tech's athletics program.

Academic programs do not have permission to use the logo, unless their coursework is assigned in conjunction with Oregon Tech Athletics.

## Color

There are official, defined school colors.

### Blue

Pantone Matching System (PMS) **540**  
CMYK process values: **100, 55, 0, 55**  
RGB values: **0, 55, 103**  
Hexadecimal: **00 37 67**

### Gold

Pantone Matching System (PMS) **122**  
CMYK process values: **0, 17, 80, 0**  
RGB values: **255, 210, 79**  
Hexadecimal: **ff d2 4f**

Black and white are the only other colors to be used with the institution logo. Specific uses of color are described in each section of this guide. Additional accent colors used in the design of publications require approval.

One-color, PMS 540

Two-color PMS 540 + Metallic PMS 872

One-color, Black

## Seal

The Oregon Tech seal is designed to officially verify academic documents. Because use of the seal is restricted, it is not available on the website for downloading. Please contact the Office of the President prior to reproduction.

Two-color, PMS 540 + PMS 122

Two-color, with outline

One-color, Black

One-color, reversed over black

Examples

**Oregon TECH**

Portland-Metro

**Oregon TECH**

Seattle Campus

**Oregon TECH**

Integrated Student Health Center

## Full logo

The Oregon Tech block logo is a general identifier for use on institution publications, stationery, merchandise, web pages, and other graphic treatments. The proportions should never be altered. This logo can be reduced or enlarged to any size, as long as the proportions remain unaltered and readability is not compromised.

The logo must not be used in conjunction with other type, graphics, or logos to form a combined graphic element.

### Reminder

You must get prior approval from the Marketing Department to use the logo on a sign or banner.

## Logo with Location

There are times where it is approved to list the unique location or office below the Oregon Tech logo. The corresponding text should not be larger than the text of the Oregon Tech logo.

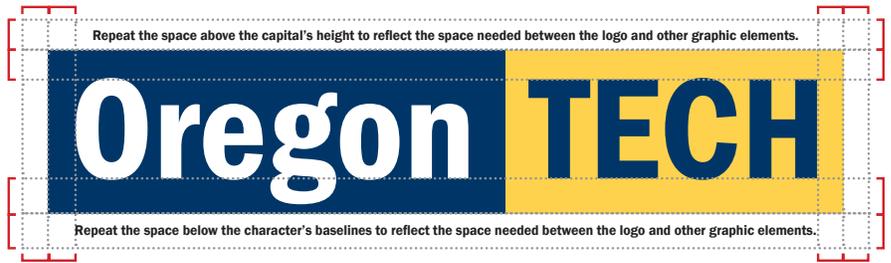

Please contact the Marketing Office to create an approved file for your use.

## Clubs & Program logos

Student club logos will not appear on official Oregon Tech publications. Student Programs, as organizations that manage their own budgets, may have logos that appear on Oregon Tech publications, with approval by the Marketing Department. Student Programs are welcome to ask for assistance with designing their graphics from the Marketing Department.

If any student club or organization wishes to purchase services from a vendor with the intent of rendering a graphic on behalf of Oregon Tech, they are encouraged to contact the Marketing Office to ensure they receive highest quality artwork for production.

## Space

The illustrations above details the buffer space requirement to be considered when using the institution's graphic identifiers.

Space is needed to prevent obstruction of the Oregon Tech brand with that of other visual elements and identities.

## Placement

The graphic identifier must have prominence. Place the logo at the top of a piece at all times.

Where full-bleed ink coverage is feasible, a gold bar may extend from the right of the TECH block, and fill the header area of the piece.

Prominence is also achieved by centering the logo on the cover or front, where it is not overshadowed by other elements.

## Which file do I need?

For **print**, there are two options:  
 ".eps"– vector-based, high resolution format  
 ".tif"– pixel-based, high resolution format

For **Web**, there are two options:  
 ".jpg"– web-based, low-resolution format  
 ".gif"– web-based, low-resolution format

Often ".jpg" files can be saved at a high resolution. However, they are lossy files, which reduce in file size and quality the more they are saved. For best results with a printed format, use either ".eps" or ".tif" formats.

Logos are available for download online at [www.oit.edu/marketing](http://www.oit.edu/marketing). Camera-ready and digital copies of the logo are available from the Marketing Department.

**ABCDEFGHIJKLMNOPQRSTUVWXYZ**  
**abcdefghijklmnopqrstuvwxyz**  
**1234567890**

This is an example of the Franklin Gothic - Demi Condensed set of characters approved for *Wordmark* use.

ABCDEFGHIJKLMNOPQRSTUVWXYZ  
abcdefghijklmnopqrstuvwxyz  
1234567890

This is an example of the Garamond set of characters approved for *copy* use.  
It may also be set in **Bold**, *Italic*, and **Bold Italic**.

**ABCDEFGHIJKLMNOPQRSTUVWXYZ**  
**abcdefghijklmnopqrstuvwxyz**  
**1234567890**

This is an example of the Franklin Gothic - Book set of characters approved for *title and headline* use.  
It may be set in **Demi (bold)**, *Italic*.

## Typeface

The typefaces chosen to compliment the Oregon Tech logo are Franklin Gothic and Garamond

The consistent use of these fonts is a simple way to establish continuity and present a professional, unified appearance.

Franklin Gothic - Demi Condensed is the only acceptable typeface for use of the words "Oregon Tech," or "Oregon Institute of Technology," unless it appears in the content of basic correspondence. If so, it should match the body copy's current formatting.

The recommended font for letter text on Oregon Tech stationery is Garamond. Body copy should be set in regular character style. Text

may be bolded and italicized as appropriate.

Suggested formats include Garamond 12 pt. with single spacing or Garamond 10 pt. with 1.5 line spacing; both formats use double spacing between paragraphs.

### **Sans Serif Alternative**

Alternative text separated as a call-out, sidebar, emphasis, or highlighted text is to be set in Franklin Gothic - Book. Text may be bolded and italicized as appropriate.

Suggested formats include Franklin Gothic Book 10 pt. with single spacing or Franklin Gothic Book 8 pt. with 1.5 line spacing; both formats use double spacing between paragraphs.

### **Titles and other headlines**

Franklin Gothic - Demi is the only other acceptable typeface to be used for titles, headlines, subheadlines, or other dominate text.

Suggested formats include Franklin Gothic - Demi, 18 pt. with single spacing. Further bolding, italicizing, and underlining is unnecessary given the contrast between text size and character sets.

**Garamond, 12pt**

**Digital Signatures:**  
E-mail from your oit.edu account is digital stationary, and therefore should remain consistent with the graphic identity of the institution. Your e-mail signature serves the exact same purpose as business cards, and should include basic contact information. Please follow the guidelines when setting up your signature to reflect our professional appearance.

Extending the web address to one, relevant page in the oit.edu domain (example: www.oit.edu/admissions) is permitted. Promoting a link outside of Oregon Tech is **not** appropriate.

Adding other phone numbers, such as a cell phone, is permitted.

Due to font restrictions with digital correspondence, please use Calibri as a default typeface, in a dark blue color.

Images of logos increase file size and are not recommended.

*Hands-on education for real-world achievement.*

## Stationery

### Letterhead and envelopes

Departments and offices on campus are urged to use the official institution stationery for correspondence. We encourage offices to use the general Oregon Tech letterhead, which does not specify office or department. Your department will be specified in the content of your letter, and on the outside of the mailing envelope.

IF YOU BELIEVE THAT YOU HAVE A COMPELLING NEED that requires specialized stationery, please contact Marketing to discuss your request and the design criteria.

### Electronic Templates

Templates for Oregon Tech letterhead are available for use on your computer. These formats enable you to print stationery directly

from your computer or to send it electronically. Links to the templates are available online.

### Business Cards

Business cards serve to relay contact information. Extensive lists of accreditations, certifications, professional organizations, or other logos and graphic identifiers not directly related to Oregon Tech are not permitted.

### Ordering

When you run out of cards or stationery, send a request for new cards to your department administrative assistant, who can order them through the Document Resource Center online ordering form.

# Have a Marketing Request?

To request assistance from the Marketing Department, start by accessing the Marketing Request Form in the TECHweb.

Your contact information will be automatically updated on the form. Please be prepared to provide the following:

1. The type of project you are working on (brochures, news release, poster, etc).
2. The date you would like to receive the finished product.
3. Which Index code will be charged for the project costs.
4. Person who will ultimately sign off on the project (as well as the Budget Authority for the Index code, if these are not the same person).

After you have completed the request form, you will be contacted by someone in the Marketing Department to get more details about your project. Some additional questions could include:

1. Who is the intended audience of your project?
2. What kind of specifications will your project have? (weight of paper, color or black/white ink, total quantity needed, etc)
3. Will you also need mailing services?

At this point, your project will be assigned to the Marketing Department staff member who can best address your needs, and you will be notified when a proof is available for approval. At any point in the process, or even if you have general questions, you may contact Marketing at (541)885-1162.

## Outdated Material

Please remove, discard, or recycle any materials that use the old logos. They are no longer used.

## The Tagline

The tagline may be used whenever the Oregon Tech logo is present. Using the tagline without the logo in general proximity is not allowed. In general, the tagline should have less visual “impact” than the logo.

The tagline is a companion element to the logo in representing the school, and is not intended to stand alone. While the tagline is an important element of the Oregon Tech brand and message, it is not

required in all cases. The size and placement are not regulated, but the messages is to act as a final message or closing, at the bottom of a publication or letter. It is recommended to be paired with the institution’s website, [www.oit.edu](http://www.oit.edu)

### Specifications

The Oregon Tech tagline must be set in Franklin Gothic Book Italics (or Oblique). The website must be significantly larger, set in Garamond.

Garamond - 36 pt

[www.oit.edu](http://www.oit.edu)

Franklin Gothic Book Italic - 12 pt — *Hands-on education for real-world achievement.*
