* An on site industry program in the Seattle area was established in 1998 and administered through the Portland Campus (note the increase in headcount and FTE). Beginning Fall 1999, the Klamath Campus oversees the program and is credited with headcount and FTE generated by these students.

** Does not include the Allied Partnership Programs based in the Portland area. These programs are reported under Klamath.

NOTE: Beginning 7/1/93, FTE generated by Nursing students is excluded (headcount is included).
