What do you think the ultimate role of general education should be?

Develop students for advanced work in their Major

Develop Students as members of Society

General education is...

“the difference between being trained to do a job vs. being more broadly educated.”

“is what makes you sound like you went to college.”

“is where education begins.”

“the difference between technical training and education.”

Purpose of general education...

“stimulate the mind to prepare an individual to continue their education.”

“to humiliate your friends and family.”

“prepare students to be productive and empathetic world citizens.”

“to prepare students to function successfully in our society.”

“Our students need sitting by the pool skills.”

“Steer every student toward being a da Vinci being.”

“Every student should take statistics.”

“Every grad should be viewed as a future manager.”

“OIT...where knowledge is used.”

“General education cannot be reduced to a single purpose.”

“Equip students with transferable skills that they need regardless of major.”

“Thank you for doing this.”
